

Nexus 110 Sounder Beacon (DC)

The Nexus 110 is a high output, low current consumption sounder beacon designed for fire and industrial applications. Connections are made to the base during the initial wiring phase which results in faster and more reliable installation. In addition, the head is fixed by quarter turn fasteners enabling faster installation and accurate seal compression for weatherproofing.

The combination of a powerful sounder and high output beacon ensures a very effective audio-visual signal. 105dB and 120dB units, as well as AC variants, are also available.

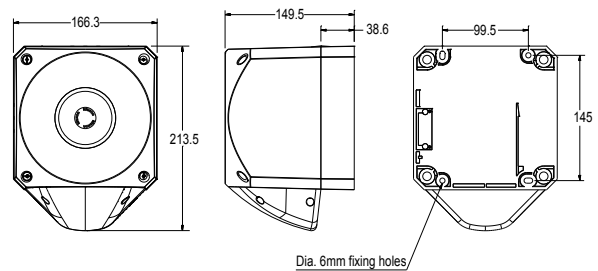

Features

- High sound output: 116dB (max); 110dB (typical)
- Three alarm stages
- High output LED beacon
- Quarter turn fasteners for ease of installation
- First-fix, wire to base technology
- IP66 rated
- Volume control for greater flexibility - 20dB
- Low in-rush current
- Static/flashing mode
- 64 tones
- Separate connections for sounder & beacon

Lens Colour Options

Applications - Conveyors, Process control alarm, Cranes, Moving machinery, Safety signalling
