

# LESLIE X-Heat

High temperature borosilicate glass tube  $\varnothing 133$  for highly corrosive atmospheres

# LESLIE X-Heat

High temperature borosilicate glass tube ø133 for highly corrosive atmospheres

Providing light at the heart of the most extreme industrial processes is a type of challenge that Sammode rises to better than anyone else! In its all 316L stainless steel and 5 mm borosilicate glass version, neither acid vapours nor caustic and corrosive liquid spray will get the better of the LESLIE! In its one-piece casing, resistant to heat shock and vibrations, and entirely dismantlable, it features ultra-robust electronics, thereby offering exceptional service life and reliability, even in permanent operation at 70°C.

## Specification

## Photometry

## Technical characteristics

|                       |  |
|-----------------------|--|
| Light source          | High-efficiency removable LED module (CRI>80, 3 SDCM)<br>50 000 h L80/B50 at max. operating temperature<br>Photobiological hazard : None (RG0)   |
| Optics                | Specific satin-finish primary diffuser optics  |
| Lighting comfort      | UGR ≤ 28   |
| Heat management       | Aluminium heat sink  |
| Control gear          | High reliability constant current output driver, mechanically and thermally reinforced.<br>Resistance to overload: 320 V AC, 48 h<br>Supports voltage spikes < 4 kV<br>Compatible with neutral TN, TT and IT arrangements with no limitations<br>Electronic compatible with central source |
| Supply voltage        | 198-264V 0/50/60Hz   |
| Electrical class      | Class I  |
| Operating temperature | -20°C to +70°C   |

## Easy installation and maintenance

|                        |  |
|------------------------|--|
| Connection             | Version with 3-pole plug : disconnectable plug for Ø 8 to 10 mm cable (3 x 1.5 mm <sup>2</sup> )<br>113INOX version : 316L stainless steel cable gland for cable Ø 7-13 mm, to a 3 x 2,5 mm <sup>2</sup> disconnectable terminal block |
| Mounting               | Attachment with 2 bolt-fitted stainless steel straps with variable center distance and 360° orientation  |
| LED engine maintenance | Easily removable LED modules and driver<br>Opening by releasing the 2 closing screws, removing the end cap and extracting the gear tray  |

## Materials

|                            |   |
|----------------------------|---|
| Housing                    | Borosilicate-glass  |
| End caps and fixing straps | 304L stainless steel (except MR version in 316L stainless steel)  |
| Gaskets                    | Silicone  |
| Method of construction     | Housing in one piece with high mechanical and chemical resistance<br>Long-lasting imperviousness by axial screw fitting |

## Standards

|                         |  |
|-------------------------|--|
| Waterproofness          | IP66, IP68, IP69K  |
| Resistance to IK shocks | IK07   |
| Fire resistance         | Non-flammable  |
| Vibration resistance    | Meets the severe application requirements of standard EN 60598-1 (tested according to IEC 60068-2-6) |
